

SAVA 1014 Smart AV remote extender

Key Benefits

- Quick and easy installation
- Using an infrared extender, you can easily operate your devices inside a closed (TV) cabinet
- Operate peripheral equipment in a closed TV cabinet
- Insensitive to use in indirect sunlight

The remote extender transmits the signal from the remote control. AV equipment remains out of sight. The remote extender transmits the signal from the remote control

Via a small receiver in the SAVA 1014, the signal from the remote control is transmitted to your AV equipment or TV decoder using innovative infrared technology. Infrared range up to 10 metres. Suitable for virtually any AV equipment brand.
