<sup>(1)</sup> The range is also highly dependent on the quality of the cable used, and the connection materials.

<sup>(2)</sup> Operate the connected AV device remotely. Operate a decoder located downstairs from the bedroom and watch the content on the bedroom TV.

<sup>(3)</sup> Can be connected to an existing computer network => simultaneous HDMI streaming and internet surfing without affecting each other.

<sup>(4)</sup> Possible to connect a tv to both the transmitter and receiver, so you can watch the same content in 2 separate rooms.

<sup>(5)</sup> Built-in Power over Cable (POC) technology eliminates the need for a power socket for the receiver near the TV.

## HDMI EXTENDERS WIRELESS
