⁽¹⁾ The range is also highly dependent on the quality of the cable used, and the connection materials.

⁽²⁾ Operate the connected AV device remotely. Operate a decoder located downstairs from the bedroom and watch the content on the bedroom TV.

⁽³⁾ Can be connected to an existing computer network => simultaneous HDMI streaming and internet surfing without affecting each other.

⁽⁴⁾ Possible to connect a tv to both the transmitter and receiver, so you can watch the same content in 2 separate rooms.

⁽⁵⁾ Built-in Power over Cable (PoC) technology eliminates the need for a power socket for the receiver near the TV.
