Precision with ease for a seamless installation When you are unable to install your 3x3 video wall on the wall, Vogel's offers the solution to mount your video wall using a floor stand solution. This is possible with the modular Connect-it system. Combine the floor stand base and crossbar with Connect-it PUC 29 poles, one or more display interface plates and display interface strips to create a perfect and seamless video wall. With ease of installation in mind, Vogel's has designed a unique, adjustable floor stand. This floor stand makes it possible to install a PUC 29 pole perfectly vertically. This floor stand also has adjustable feet that make it possible to position your floor stand perfectly horizontal. How easy is that? The display interface strips used when mounting video walls have maximum adjustability and can be adjusted in three directions (3D). These 3D display interface strips can be used to create an absolutely perfect and seamless video
