The new cabinet is designed for video conferencing use to store video conference codec's, but can also be used for larger DVD players, laptops and PC's. The cabinet offer maximum security against theft or unauthorised operation.

The cabinet is designed in such a way that servicing the codec is quick and easy. A large lockable opening on the front of the cabinet allows easy access for connecting cables and service and maintenance. Openings in the front make it possible for a remote control still to be used and provides sufficient cooling for the device inside.
