

SIGNATURE TV wall mounts

Every large TV, mounted on a
design statement

Introduction

Vogel's flagship

Vogel's proudly introduces SIGNATURE, three new TV wall mounts that are unlike any other in terms of design, technology and experience. We call it SIGNATURE for a reason: this is the best of the best. Incorporating nearly 50 years of experience in design, craftsmanship and innovation, this is rightfully our flagship series. With its elegant, minimalistic design, it matches your large, ultra-slim TV seamlessly.

The SIGNATURE Series includes the manually operated DesignMount and the MotionMount, a motorized TV wall mount. For professional purposes, there is the SIGNATURE MotionMount PRO. With the SIGNATURE Series, Vogel's caters to the design enthusiast who is only satisfied with the best of the best.

Your TV on the wall, just the way you want it

High-end design TV wall mounts for large TVs

Choose motorized or manual movement to operate this unique TV wall mount. With our eye for detail, we use high-quality finishes and ensure that cables are out of sight. This wall mount fits seamlessly into any interior.

The innovative, minimalistic design perfectly complements large ultra-thin TVs from 40 to 77 with a maximum weight of 35 kg. SIGNATURE TV wall mounts can be turned up to 120° for optimal viewing comfort.

- ✓ Smooth turning mechanism, can be operated manually or motorized
- ✓ Our most innovative design yet - stylish in any interior
- ✓ Fully integrated Cable Inlay System (CIS®) - Connect, protect and hide your cables, from wall to TV
- ✓ Mount using the free DrillRight™ AR app
- ✓ Complete your mounting system with a matching aluminum cable column

**EXCELLENCE
IN MOTION**

TV wall mounts with the wow factor

The operation of SIGNATURE TV wall mounts is phenomenal. The SIGNATURE DesignMount TV wall mount features Vogel's renowned OneFinger™ Movement. This allows you to smoothly turn the screen to the desired position with just one finger.

For the consumer who is looking for even more luxury, the SIGNATURE MotionMount TV wall mount is the ultimate choice. This TV wall mount really has the wow factor. When the TV is turned on, the wall mount automatically moves to a preset or last-selected position. You can operate it using your voice (Siri Voice Control), remote control or the app, the choice is yours.

For professional applications, we have developed the SIGNATURE MotionMount PRO. This version is equipped for an Ethernet and RS-232 connection. This allows you to easily configure the Vogel's MotionMount PRO and connect it to other products in the room. For the user, Automatic Movement when turning on the TV and using an app and remote control remain possible.

Large forward range

Both the SIGNATURE DesignMount and SIGNATURE MotionMount feature an ingenious 4-arm mechanism, with long, strong arms. As a result, the TV wall mounts have a large forward reach of no less than 72 cm. Ideal for consumers who want to mount their TV in a cabinet or recess or for professional use in an office or hotel.

Your cables and connections neatly out of sight

SIGNATURE TV wall mounts stand out for their innovative design. To neatly conceal cables and connections out of sight, the wall mounts feature Vogel's unique Cable Inlay System (CIS®), cable holders with room for 4 metres of cable and a cover plate. In rooms where cables can be hidden in the wall, you can easily use the recess in the round wall plate of the TV wall mount.

Our Vogel's (Electronic) Screen Protection System, or (E)SPS®, prevents your large TV from hitting the wall. And thanks to 3D-Leveling™, you can easily level your TV horizontally, vertically and in depth after installation. Even on an uneven wall.

Installation is easy

You can install a SIGNATURE DesignMount or MotionMount (PRO) TV wall mount yourself. A drilling template, screws and fischer® DuoPower plugs are included in the packaging. In addition to an enclosed Quick Install Guide, comprehensive step-by-step instructions are available online.

For extra ease of installation, the free DrillRight™ Augmented Reality App is available, which allows you to mark the first drill hole on the wall. Fully tailored to the TV wall mount and the TV you have purchased.

The MotionMount and MotionMount PRO connect easily to your TV or display using the included 2-metre HDMI cable. The power cable is suitable for use worldwide.

Ultimate safety

With Vogel's SIGNATURE, you don't just get luxury, you get security. All SIGNATURE models meet the most stringent safety standards. They have been tested at three times the maximum weight capacity and TÜV certified. In addition, the wall mounts have been extensively tested for longevity and endurance.

Accessories

Of course, designer TV wall mounts should not have cables running along the wall. Vogel's stylish TVA 7000 aluminum cable cover offers the ideal solution. This matching cable cover connects seamlessly to the wall plate of the SIGNATURE TV wall mounts and is available as a separate item. The TVA 7000 aluminum cable column is available in white and black.

A 2-metre HDMI cable is included with the MotionMount and MotionMount PRO.

A Bluetooth remote control and an extra-long 4.5-metre HDMI cable are available separately, when the MotionMount (PRO) is used in combination with a One Connect Box for instance.

Is the TV wall mount installed on a hollow wall? Advise your customer to use our TVA 6950 stud adapter. The SIGNATURE TV wall mount is then guaranteed to be installed firmly and securely.

SIGNATURE MotionMount TVM 7675

The SIGNATURE MotionMount is Vogel's absolute top model. The motorized TV wall mount automatically turns toward you when you turn on your TV. You operate the wall mount using your voice, app or remote.

SIGNATURE MotionMount TVM 7675 PRO

The SIGNATURE MotionMount PRO motorized wall mount from Vogel's outshines any other wall mount in design, technical ingenuity and ease of use. Ideal for applications in upscale office, hospitality and hotel environments.

Environmentally friendly packaging

Caring for the environment is important to us at Vogel's. That's why our packaging has been made as environmentally friendly as possible. It no longer contains parts made of EPS (Expanded Polystyrene). In addition, we have reduced the use of disposable plastic by 95%.

The packaging has been made as compact as possible, enabling us to achieve a 33% volume reduction.

Products and packaging are always produced according to the Business Social Compliance Initiative (BSCI).

What makes a Vogel's TV wall mount so special?

A question we are often asked. As the market leader in TV wall mounts and other AV equipment, we can assure you that you're getting the best possible solution. Because when you're looking for a TV wall mount or accessory, not just anything will do. With Vogel's, you can offer customers the most beautifully designed mounting solution for their valuable TV. All models in our new range have been extensively tested for longevity.

Vogel's. For Sure.
