

PLW 1004 2x3 LED video wall mount

Article number (SKU) 7310040
Colour Black

This new rear service mounting solutions supports 2x3 Leyard or Philips LED tiles and provides up to 60 cm of smooth forward extension. The open frame design allows complete rear cabinet access with no obstructions. The frame provides quick installation of the LED tiles within a single mounting frame. Adjustable wall foot pads enable fine tune adjustment on uneven surfaces while dual locking latches keep the mount secure in place when service is not required. This make the mounts suitable for use in control rooms, corporate environments, reception areas, high-end retail and broadcasting applications.

The PLW Series is available in several standard configurations (1x2, 2x2, 1x3 and 2x3). By coupling these mounts other video wall dimensions can be created. The mounts are suitable for the Leyard TWA and TW Series and the Philips L-Line. The actuator to create a motorized mount is optional.
