

SAVA 1031 Smart AV converter COAX to TOS

Article number (SKU)
Colour

8310313
Anthracite metal

Key Benefits

- Convert digital audio from Toslink to coaxial signal (or vice versa)
- Optical to coaxial or coaxial to optical
- Supports 2 to 5.1 channel digital audio signals
- Ideal for when your audio source has a different digital audio output

Converts the digital audio signals from Toslink to coaxial and vice versa. Converts Toslink to coax and vice versa

The SAVA 1031 is used to convert from optical to coaxial or from coaxial to optical audio signals. Suitable for the most common 2 to 5.1 channel digital audio signals.

Increase the maximum cable length

The SAVA 1031 not only connects your audio Toslink connection to a coaxial connection, it also amplifies the digital audio signal. This allows you to extend the cable length without losing any of the quality. Two-way conversion for a strong audio signal. Convert a digital Toslink audio signal to a digital coaxial audio signal and vice versa. Ideal for when your audio source has a different digital audio output to your audio amplifier, for example. The Quality Signature. When you purchase one of Vogel's SAVA products, you are always guaranteed quality and innovation. Smart and sustainable products that do what they are supposed to do. As part of Vogel's 'Quality Signature', you can always count on: reliability, design, innovation, ease of use and ease of installation.
