

# PFFE 7106 Motorized display lift 60 cm

Article number (SKU) 7371064  
 Colour Silver

The Vogel's PFFE 7106 display lift is ideal for situations where a higher built-in height is required, such as meeting and huddle rooms.

The modularity of the motorized line-up allows users to create almost any solution imaginable with just a few components. The display lifts can be mounted directly to the floor, combined with a floor plate or with a trolley base when mobility is desired. Combine one or two PFFE 7106 display lifts with the PFI 3061 Interface box and you will have the perfect mounting solution for almost all large format displays and touchscreens. When floor mounted the PFA 9134 is required to be used. Use the optional PFA 9119 electronic safety strip to prevent damage when the movement is blocked by an object.
