

Panel Integrator

063.4400 Installation Series | Panel integrator

The Panel Integrator bracket can be set up to accommodate for one up to four audiovisual control panels, USB ports or power outlets into the Installation Series column at the desired height. The Panel Integrator kit includes different frames to cover the Panel Integrator bracket, for a well finished result.

Every column of the Installation Series standard comes with one Panel Integrator included. Additional Panel Integrators are available as an accessory.
