Add automatic movement to turn your TV

The MotionMount by Vogel's is a flexible TV wall mount that offers maximum usability. This motorised TV mount automatically turns towards you no matter where you're sitting in the room and up to 120 degrees to the left or right. After you have turned on the TV, the MotionMount moves to your preset viewing position in one fluid motion. When you turn the TV off, the screen and MotionMount gracefully move back against the wall. All without the need for an extra remote control. Even mounting and installing the MotionMount is very easy. Everything is plug & play: 1 plug in the outlet and it works!
