

Outdoor displays: reaching audiences in outdoor environments

The perfect wall mount and floor stand for outdoor displays from the LG outdoor XE4F series

Safely install your LG outdoor display in any location

You can see them more and more on the streets: digital outdoor displays. Large displays alongside roads, in shopping malls and other public spaces where a lot of people pass by. For companies, these are ideal places to communicate with their customers.

LG designed an all-in-one digital signage solution specifically for outdoor applications: the LG outdoor XE4F series. Displays with a slim and robust design with excellent image quality.

Your LG outdoor display optimally protected against weather conditions

Vogel's mounting solutions for LG outdoor displays are made of durable materials with a long service life. The frame makes the whole set-up waterproof and ensures that the display can withstand extreme temperatures from -30 °c to +50 °c.

This means that the combination of the LG outdoor XE4F series and Vogel's mounting solutions can be used in a wide range of applications and can withstand all weather conditions.
