Key Benefits

- Height adjustment range of no less than 980 mm
- Movement speed of 80 mm/s for the heaviest screens with QuickRise®
- TÜV and CE certified
- Quick and easy installation
- Anti-collision on the display lift prevents damage

RISE 2000 DirectControl® is a manually operated, electrically supported display lift for easy, fast and safe height adjustment of large displays. The lift is suitable for screens up to 98" of max. 100 kg and has a universal VESA fitment up to max. 800x600. With a maximum height adjustment of 985mm, lift speed up to 80mm/s and a stable column construction, this lift fits perfectly into any environment. Due to the unique DirectControl operation, you can move the screen simply by pushing or pulling it at any desired location. Without remote control or buttons. The lift automatically adjusts its speed based on the force applied
