mounting solution for
seamless installation

dvLED Connect-it

Universal LED mounting solution for a seamless installation

For 50 years, Vogel's has been developing innovative reliable and user-friendly mounting solutions for both the consumer and professional markets. Solutions that excel in terms of design, safety and ease of installation.

Specifically for mounting dvLED panels, Vogel's has developed an innovative mounting system; dvLED Connect-it. The system guarantees a quick, easy and seamless installation. dvLED Connect-it is designed so that it can be easily mounted

on a wall, floor or ceiling. Where drilling into the wall, floor or ceiling is not an option, we offer the solution of attaching the system to a Vogel's floor stand or trolley.

The dvLED Connect-it system (patent pending) meets the highest industry standards for quality and safety. High-quality materials have been selected. Materials that have the least possible impact on the environment and increase the lifespan of products.

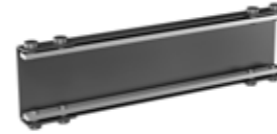

- ✓ Quick and easy installation.
- ✓ Slim design: 40,5 mm
- ✓ Precise adjustment in x, y and z directions for seamless results.
- ✓ Compatible with all brands of dvLED panels.
- ✓ Suitable for wall, floor and ceiling mounting.
- ✓ TÜV-5 certified, guaranteeing high quality and safety.

Product details

dvLED wall mount (x, y and z adjustment)

Attach the dvLED interface bars to the wall using dvLED wall mounts. The wall mounts are adjustable in depth, so any irregularity in the wall is easily accommodated. Thanks to precision vertical adjustment, the dvLED interface bars can be mounted perfectly level.

Bar coupler for dvLED interface bar PLB 31xx

A bar coupler connects two dvLED interface bars to each other. The bar coupler allows any width to be created for any project.

Mounting bolts M6, M8 and M10 for dvLED

Mounting bolts are used to hang the dvLED panels in the dvLED interface bar. This mounting kit contains materials to mount dvLED panels with M6, M8 and M10 mounting holes.

dvLED interface bar

Horizontal profiles, available in lengths of 110cm / 200cm / 270cm / 330cm

Extension for dvLED interface bar (PLB 31xx)

By using the extension, cutting the interface bar on site is a thing of the past. The end piece can be adjusted to the desired width, allowing the dvLED interface bar to fit perfectly behind the dvLED panels.

Spacer for position dvLED interface bar

When you use the universal spacer then there is hardly any need to measure. Is the lower dvLED interface bar at length and perfectly level? Then mount the next rows in no time.

Why Vogel's?

The best solution

In our Product Development Centre, we develop products that fully meet the wishes of the end user and those of the installer. This is the starting point of any new product development process at Vogel's. What do we add to that? Future-proof design. So that, even after many years of intensive use, the end user is as happy as ever with it.

The best materials

At Vogel's, we don't compromise on quality. You have to be confident that you have bought a very strong, solid and sustainable product. For us, quality is key in every step of the design process.

Maximum safety

Vogel's products are always TÜV-certified. An independent guarantee that you have an absolutely safe product. We test many products for the professional market at five times the maximum weight capacity.

Quick and easy installation

Every Vogel's product is designed for easy mounting. As an installer, this saves you a lot of time, especially on larger projects.

Service and support

As easy as our solutions are to install, sometimes extra support is required. Especially for larger, complex (not common) installations you can encounter challenges.

Automated Video Wall Engineer

Our Automated Video Wall Engineer makes configuring and quoting any video wall solution extremely easy. The only thing our Service & Support team's video wall expert needs from you are the technical variables. If necessary, we will take you through these step by step. You will then receive your customised quotation within 24 hours, complete with parts list and all general, detailed and construction drawings. Accurate, fast and flawless. This way, you will recommend, deliver and install the best solution for every video wall with confidence, every time.

Leading for 50 years

As an AV installer, you can rely on Vogel's. For 50 years, Vogel's has been developing innovative, reliable and user-friendly mounting solutions for both the consumer and professional markets. Solutions that excel in design, safety and ease of installation. So you never choose just any mounting solution. You choose the certainty of the best solution.

Vogel's. For Sure.
