

Divisible stand max. 65 inch

062.1000 Fully divisible stand for flat panels up to 65 inch, 60 kg, single construction

Due to its divisibility, this stand is ideally suited for rental applications. The 4 separate parts, namely the floor plate, the column parts of 95 cm each and the stand head, can be packed and transported very compactly in a flight case together with the monitor. The stand can be assembled without tools and is equipped with three cable ducts to conceal all cables neatly. Based on the weight and mounting pattern of the monitor, choose a suitable monitor bracket with three-point coupling to mount the screen to the stand. The screen can be secured against theft by means of a padlock.

Divisible stand max. 65 inch
