<b>PRICE RANGE</b>		---	---			---	---	---	

<sup>(1)</sup> **EDID** Choose your video resolution (4K2k, 1080p, 1080i) (**542 UHD**) or audio format (HD Audio, DTS 5.1, Dolby Digital, PCM 2.0) on the HDMI output (**621 UHD 2.0**).

<sup>(2)</sup> **Matrix function** Watch different HDMI devices on multiple screens independently.

<sup>(3)</sup> **ARC** Synchronises your TV's audio and video and sends it back to your AV receiver via the digital audio output. This is especially important to prevent or remedy lip sync problems.
