

RISE A 112 Stud Wall Adapter RISE 200x

Key Benefits

- For mounting on the RISE floor-wall solutions
- Complete your RISE Display lift with handy accessories

The RISE A 112 stud wall adapter makes it easy to mount your RISE 2005 or 2008 on a (weak) stud wall. The stud wall adapter is 90 centimetres wide, allowing you to mount the lift in your preferred position. Because the vertical beams of a stud wall are 45 centimetres apart, when the adapter is used in combination with the RISE A 112, it is even possible to mount the RISE lift between two studs.
